TIMELINE FOR OUR STUDY

GLENWOOD CHURCH OF CHRIST / AUGUST 2016

The task force appointed by the elders to design and implement our congregational study of women in the church has been hard at work. They have decided upon a schedule for our upcoming process, and we would like to use this update to share it with you.

We applaud the team for contacting several of our Christian universities seeking input about speakers and teachers on this wide range of topics. The task force is in the process of contacting potential speakers and will make those names known soon. Speakers have been invited based on experience, scholarship, and ability to present various views in an intelligent, articulate, sensitive, balanced and non-coercive manner.
